## COURSEWORK

The Web Developer Bootcamp - 2024

-Udemy

## EDUCATION

### BHARATHIAR UNIVERSITY

MBA

2021 | Coimbatore

### DR.G.R.DAMODARAN COLLEGE OF SCIENCE

B.COM(CORPORATE SECRETARYSHIP)

2019 | Coimbatore

## EXPERIENCE

### SENGHOLA

#### FRONTEND ENGINEERING INTERN

July 2023 – Dec 2023 | Remote

- 10 out of 100 people were selected for their Live Project
- Led a Team of 10 FrontEnd engineers
- Worked in a Live Project - Petopia

## PROJECTS

### CRYPTOBUCKS

- Used **Context API** to manage **states**
  - A **Fully Functional** website which **Fetches Realtime data** from an **API**
  - Includes **Pagination** section, **Filter** section, **Search** section, **Charts** to display the **cryptocurrency realtime data**
  - We can **save a coin** to **track** a **particular coin** later. (Works like **Watch Later** functionality).
  - Used **Intl** to display the **amount** of the particular cryptocurrency (like USD, INR, etc..)
  - **React Router** has been used to change pages • We are allowed to **change the currency** and **display the amount** in the **currency we wanted**
- Link : <https://cryptobuckapp.netlify.app/>

### RICK AND MORTY

- A **Fully Functional** and completely **Responsive** website which **Fetches data** from an **API**
  - Includes **Pagination** section, **Filter** section and **Search** section.
  - **React Router** has been used to change pages
- Link : <https://rickandmortycartoon.netlify.app/>

### PETOPIA

- A **Live Project** built for a **Pet's Shop** during my **Internship**.
- Worked in a team environment with design team, backend team.
