SKILLS

PROGRAMMING
- Javascript
- HTML
- CSS
- Bootstrap
- Tailwind CSS

LIBRARY
- React JS

VERSION CONTROL TOOL
- Git and Github

OTHER TECHNICAL SKILLS
- JSON
- AJAX
- Asynchronous Javascript
- ES6+ features
- RESTful API Integration
- Responsive Web Development
- Cross Browser Compatibility
- Debugging
- State Management
- Problem solving
- Logical Thinking

COURSEWORK

The Web Developer Bootcamp 2024 - udemy

RESPONSIBLITIES

- Team Lead - FrontEnd Development - during internship in Senchola

EDUCATION

BHARATHIAR UNIVERSITY
MBA
2021 | Coimbatore

DR.G.R.DAMODARAN COLLEGE OF SCIENCE
B.Com(Corporate Secretaryship)
2019 | Coimbatore

PROFILE

Enthusiastic and motivated entry-level Front-end Developer eager to contribute technical skills in HTML5, CSS3, JavaScript, and React.js to support innovative web development projects. Passionate about leveraging emerging technologies to create engaging user experiences. Seeking an opportunity to grow and thrive in a dynamic development environment.

EXPERIENCE

FRONTEND DEVELOPER INTERN
Senchola Technology Solutions
July 2023 – Dec 2023 | Remote
- Collaborated with senior developers to design and implement responsive web interfaces using HTML5, CSS3, and JavaScript
- Assisted in the development of dynamic user experiences with React.js, optimizing performance and usability
- Integrated backend APIs using asynchronous JavaScript techniques, including JSON and AJAX
- Utilized Bootstrap and Tailwind CSS frameworks to enhance frontend design consistency and efficiency
- Contributed to the version control process using Git and GitHub, ensuring project integrity and collaboration among team members
- Participated in code reviews and debugging sessions to improve code quality and maintainability

PROJECTS

CRYTOBUCKS

- Used **Context API** to manage **States**.
- A **Fully Functional** yet **Fully Responsive** website which **Fetches Realtime data** from an **API**
- Includes **Pagination** section, **Filter** section, **Search** section, **Charts** to display the **cryptocurrency realtime data**
- We can **save a coin** to **track** a **particular coin** later. (Works like **Watch Later** functionality).
- Used **Intl** to display the **amount** of the particular cryptocurrency (like USD, INR, etc..)
- **React Router** has been used to change pages
- We are allowed to **change the currency** and **display the amount** in the **currency we wanted**

Live Demo : CryptoBucksApp | Code : CryptoBucksApp

RICK AND MORTY

- A **Fully Functional** and completely **Responsive** website which **Fetches data** from an **API**
- Includes **Pagination** section, **Filter** section and **Search** section
- **React Router** has been used to change pages
Includes • Dynamic Routing

Live Demo : Rick and Morty | Code : Rick and Morty
